

Subpart—Fruits and Vegetables From Puerto Rico or Virgin Islands

QUARANTINE

§ 318.58 Notice of quarantine.

(a) Under the authority of sections 411, 412, 414, and 434 of the Plant Protection Act (7 U.S.C. 7711, 7712, 7714, and 7754), Puerto Rico and the Virgin Islands of the United States are quarantined to prevent the spread of certain dangerous insects that are not widely prevalent or distributed within and throughout the United States, including the fruit flies *Anastrepha suspensa* (Loew) and *obliqua*; the bean pod borer *Maruca testulalis* (Geyer); and a cactus borer, *Cactoblastis cactorum* (Berg.).

(b) No fruits or vegetables, in the raw or unprocessed state, shall be shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved, by any person from Puerto Rico or the Virgin Islands of the United States into or through Guam, Hawaii, or the continental United States, and no cactus plants or parts thereof shall be shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved, by any person from the Virgin Islands of the United States into or through Guam, Puerto Rico, or the continental United States; in any manner or method or under conditions other than those prescribed in the regulations hereinafter made or amendments thereto: *Provided*, That whenever the Administrator shall find that existing conditions as to the pest risk involved in the movement of any of the articles to which the regulations supplemental hereto apply, make it safe to modify, by making less stringent, the restrictions contained in any of such regulations, the administrator shall publish such finding in administrative instructions, specifying the manner in which the restrictions shall be made less stringent, whereupon such modification shall become effective; or the administrator may, when the public interest will permit, with respect to the

movement of any of such articles to Guam, upon request in specific cases and notification to the person making the request, authorize their certification under conditions, specified in the certificate to carry out the purposes of this subpart, that are less stringent than those contained in the regulations.

(c) Except for pigeon peas (fresh shelled or in the pod) moved from Puerto Rico to the U.S. Virgin Islands, which must meet the requirements of § 318.58-2(b)(4), no restrictions are placed on the movement of fruits or vegetables in either direction between Puerto Rico and the U.S. Virgin Islands.

(d) This subpart leaves in full force and effect § 318.60 which restricts the movement from Hawaii, Puerto Rico, or the Virgin Islands of the United States into or through any other State or certain Territories or Districts of the United States of sand, soil, or earth about the roots of plants.

(e) Regulations governing the movement of live plant pests designated in this section are contained in part 330 of this chapter.
